Date : 26 August 2009

Christo De Wet
Executive Head: Network Quality

P.P. Thami Mazibuko
Executive Head: SM

Disclaimer:

Vodacom tests are intended to ensure that only quality Mobile Stations are introduced into the network via the Vodacom Service Provider Company. These tests do not replicate full Type Approval testing and Mobile Stations are not unconditionally endorsed as being fully compliant with GSM Specifications. The manufacturers and suppliers remain responsible for the performance of their products. This is the condition on which the Vodacom Service Provider Company releases the phones for use on the Vodacom network. Vodacom at all times reserves the right to randomly re-examine Mobile Stations particularly under live conditions within the network and if necessary withdraw any endorsement status as a result of such re-examination. Mobile Stations, which do not perform satisfactorily on the Vodacom network, will have their endorsement for use on the Vodacom network withdrawn and this will be explicitly communicated to Vodacom Service Provider Company. A written agreement between the Managing Director (MD) of Vodacom Service Provider Company and Vodacom (Pty) Ltd. has to be obtained to affect such an endorsement withdrawal.
